

SYSTEMIC MEDIATION

Through a systemic approach, through individual insight into the **underlying mechanisms of each party and dialogue**, mediation makes it possible to **act on the conflict and co-define the follow-up**.

Your needs: anticipate, support or resolve a conflict.

Our offer:

During this **3-hour workshop** around your needs, we **highlight the associated issues and establish the first lines of work** through a systemic approach.

The "Need workshop" can be followed by the "Systemic Mediation Path".

The Systemic Mediation Path is the natural follow-up to the Need Workshop. These are **5 sessions of 2 hours each, spaced one month apart**, during which the respective issues are addressed in a systemic way in order to **allow dialogue and the development of a new perspective**

on the situation.
